

OnTrak™ Program for Drinking and Drug Use

OnTrak is personalized just for you. It's designed to help you improve your health and live better. You may be seeking treatment for the first time. Or, other programs may not have worked for you. If you are looking to regain your confidence and increase your number of healthy days, OnTrak may be able to help.

How We Help

It's time to feel better. Our mission is to support you in reaching your goals for health and well-being. OnTrak has helped many people facing difficult challenges. We are here to help you too.

The OnTrak program is a team effort. As an OnTrak member, you receive:

Individual Care Coaching by a Nurse – Your nurse Care Coach will listen to you and support you with compassion and without judgment. Your Care Coach is always there to encourage you toward your goals.

One-on-one Counseling – Your counselor will work with you on what is most important to you. Counseling may help you do things differently, to change your drinking or drug use. You may discover new ways to face challenges and manage difficult situations.

Specialist Visits – If recommended, you may visit an OnTrak doctor. Medical treatment can help with one of the main reasons people relapse – cravings. With fewer cravings, you can focus on recovery.

OnTrak is confidential. And OnTrak is convenient. The program is outpatient, limiting your time away from friends, family and home. You complete it at your own pace, on your own time.

Want to be happier with your quality of life?

The OnTrak program may be your answer.
